Established on 22nd August 1977, Lakhimpur Telahi Kamalabaria College /LTK College has been providing knowledge and higher learning opportunities to the aspiring youths of the district for the last 44 years. In the process it has produced thousands of graduates, and teachers and scholars of recognition. Above all, it has paved the way for the aspiring youths belonging to economically backward and agrarian family by creating better opportunities, inculcating a sense of purpose and putting them in the right direction in the quest for life.

From a very humble beginning in 1977, the college has now reached a significant milestone against all odds and constraints. At present, the college is providing higher education in both Arts and Science streams respectively with Honours courses in all the subjects. As the only college located in a rural area, offering higher education in both the streams, it has an uphill task of fulfilling the hopes and aspirations of the students, public, guardians and stakeholders.

The scenario of higher education is changing rapidly and to make the rural students cope with the changing scenario, the college is endeavouring to initiate some vocational, career and skill-oriented courses. The college strives to transform itself into a model rural college of the district by providing quality education backed by technological as well as necessary soft skills to the aspiring students for better employability. Such goals can be achieved by transforming the whole curriculum into better teaching and learning experiences and all the members of the college are committed to take the college towards new vistas of academic excellence. In 2016 the college was accredited with B+ Grade (2nd Cycle) by NAAC.

Women's Rights and Gender Equality is one of the contemporary issues across the world. Women have been fighting for their rights for centuries. Gender inequality and discrimination stands to be the norm everywhere. Only few of them are aware of their legal rights and have the courage, knowledge or skill to make of them. Women leaders are fighting to break the social barriers and create a just and egalitarian society. One of the icons fighting for Women's Rights was Kamla Bhasin, the Unflagging feminist and communicator par excellence, who passed away in Delhi on 25th September 2021. She left a unique imprint on the women's movement across India and South Asia. She was universally described as an unflagging feminist and one of the most original voices to have emerged in the course of the women's movement in the 1970s, who had the ability to rip through ideas of patriarchy with rapier sharp wit or laughter. She was very clear that the fight is not against men but against patriarchy and its associated evils – violence, discrimination and oppression. "Feminism is the radical notion that women are human" – it's not about dominating men or wanting to be the same as men. Herself a child abuse survivor, Kamla believed that patriarchy is harmful not only to women but also to men.

The theme of the present seminar; Dimensions of Women's Rights and its Violations (A Tribute to Kamla Bhasin: The Unflagging Feminist Icon) will be organized with an intent to create awareness about the different dimensions of women's rights violation and the different measures undertaken for the protection of their rights.

Sub Themes:

- ▶ Women's Rights Protection and Challenges before Law
- ▶ Socio-economic Status of Women; Past and Present
- ▶ Sociological and Historical Dimension of Women's Rights
